IXPORTS FROM FALLING OFF

Submarine Warfare Has Curtailed Trade with U. S. but Little.

How little the submarine warfare has curtailed the exports from London to the United States since America declared war on Germany, is seen in the figures announced last night of the United States imports from the British capital. The figures for teams the ending with October, show a decrease of only \$15,000,000, with a total of \$115,390,471. Last year the figures for the similar period were \$133,740,783.

The principal articles imported from London and their value were: Rub-ber, \$31,916,629; precious stones, \$15,-609,465; tin, \$8,852,856.

ports of tin, as compared with last year's figures, a decrease of about \$2,000,000 in art imports; the figures for hides is about half what it was, and less wool was sent her from London less wool was sent her from London by approximately \$500,000. Indigo, also, shows a decrease, amounting to more than \$1,000,000. Tea shows the most notable falling off, the figures being \$4,335,508 for the 1916 period and \$747,058 for 1917. There was no tea or wool imported from London last

I have not forgotten you fellows of Carroll and do not want to be forgotten by you, for though I have been away from Washington less than two months, it seems like ages and I wish I could be among you for an evening. There is nothing I would not give to sit in the library tonight and 'knock' and 'boost' and spread the old 'bull' to my heart's content and move toward the Garden and Strand in a bunch. Well, to make a long story short, I was so damned seasick I didn't care if the ship sank or not ship sank or not.
